

COMPANY PROFILE

2020

COMPANY INTRODUCTION

ZKTeco, founded in March 1998, is a world-leading enterprise specialized in Multi-Biometric Verification technology applied with deep learning algorithm creating and developing a smart office, smart security, smart financing, smart city, etc.

ZKTeco provides a service network covering the entire biometric verification technology and Internet of Things in Silicon Valley in USA, research institute for cloud platform, cloud computing, and big data in Europe, software development center in Xiamen, manufacturing center in Dongguan, and technical service center in Dalian.

With the rapid innovation of technology, ZKTeco has always been at the frontline of biometric technology, constructing business ecosystems with platform thinking and striving to be the paragon in the industry.

CORE VALUES

Responsibility

Responsibility is a major indicator to measure individual quality which penetrates our mutual commitment to customers, partners, employees, shareholders, and other stakeholders in social relations.

Integrity

As for culture and self-discipline of ZKTeco, integrity is the most important guidance of common values and the cornerstone of all virtues. Integrity reminds us to insist on correct orientation, dare to admit mistakes, and keep our beliefs.

Pragmatism

Being practical-minded means to be down-to-earth, practical, and realistic. Fundamentally, it is to proceed from reality, boldly upholding truth and science, and dauntlessly correcting errors.

Excellence

In ZKTeco, excellence means being a world-class enterprise who provides top-standard innovated products and services. The process of being a sustainable excellent enterprise with efforts and struggles makes a good annotation.

OUR MISSION

ZKTeco's goal is to share our highly developed, revolutionary biometric technology to benefit businesses and people.

OUR VISION

Brand

To become the world's recognized leader in outstanding innovation and pioneering technologies in security and time management solutions.

Partners

Cultivate a winning network of partners, maximize profit margins for our partners, provide richer solutions and create mutual enduring value.

Efficiency

Be a highly effective, fast-moving, and nimble organization providing effective solutions that help organizations improve management efficiencies.

Social Responsibility

As a leading worldwide solutions provider in the industry, it is our duty to give back to society. We will do our part to support worthy causes that contribute to a peaceful, environmentally sound and sustainable planet.

Responsibility

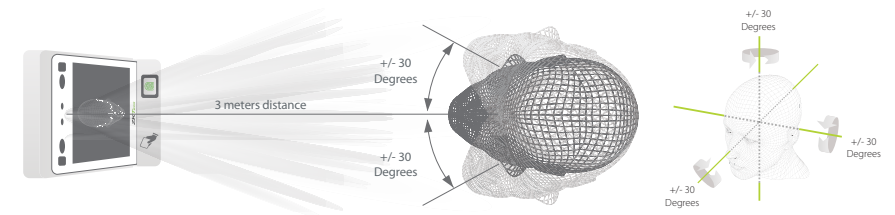

Be mindful of our commitment to our customers and partners at all times. This means consistently responding to the needs of our customers and partners in a timely, courteous, professional, and understanding manner.

OUR SOLUTIONS

ZKTeco is dedicated to provide all-rounded and mead-to-measure solutions to residential, office, retail, finance, public facilities, property management, construction, supply chain, government, education, hospitality, etc. Our solutions are flexibly customized according to every client's specific requirements.

Recognition distance up to 3 meters long and supports 30° angle facial recognition.

Gender

Stability

24/7 stable
hardware performance

ACCESS CONTROL

We provide complete security solution that can meet the needs of every changing environments of businesses today: software, access control terminals, access control panels, readers, guard patrol, electric locks, exit button, etc.

Atlas Access Control Panels

- ✓ Built-in web server
- ✓ Mobile application

TIME ATTENDANCE

BioTime 8.5

Multi-Location Centralized Time Management System

ZKTeco devotes in developing cutting-edge technology with Hybrid-Biometric solutions. We provide a full range of time & attendance terminals: face, palm, fingerprint, finger vein, card, portable, etc.

ENTRANCE CONTROL

Combining with our Hybrid-Biometric technology, we give you control over your visitor's access around your premises.

Tripod Turnstile • Flap Barrier • Swing Barrier • Speed Gate • Full Height

SECURITY INSPECTION

We offer a dependable and flexible intelligence security solution building a comprehensive security system to protect your entrance security.

Hand Held Spectrometer

Threats Trace Detector

Walk Through Metal Detector

Hand Held Metal Detector

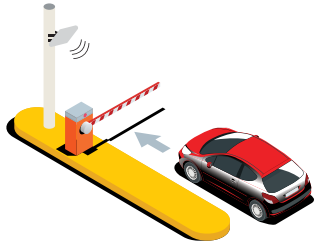

Liquid Detector

X-Ray Baggage Inspection

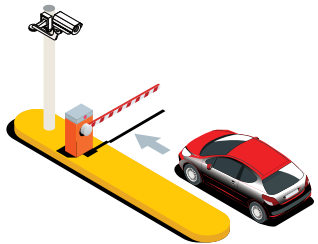

Long Range Reader + Boom Barrier

UHF Series

- Up to 18m reading distance
- Compatible with ZKTeco and 3rd party parking barrier

License Plate Recognition + Boom Barrier

License Plate Recognition

- Up to 10m recognition distance
- Fast recognition time
- Connects to ZKBioSecurity or ZKParking software

Parking Barrier

Parking Lock

Bollard

Under Vehicle Scanner

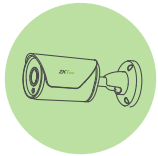

CHECKPOINT SOLUTION

Our vehicle management system not only ensures high security and fast access management but also assure a complete parking charge management.

VIDEO SURVEILLANCE

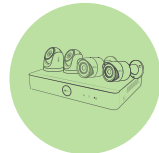

IP & Analog Cameras

NVR & DVR

PTZ Cameras

NVR & DVR Kits

Software & Mobile App

Facial Recognition Solution

Face detection, facial recognition and facial feature analysis such as age and gender

Face tracking, reloading, and matting

Report facial recognition information

Blacklist alert

VIP account management

ZKTeco specializes in manufacturing surveillance products and solutions focusing on integration of access control linkage and face identification technology.

Our standalone battery-operated smart lock system are perfect cost-effective and has easy installation solution which are especially designed for hotels, service apartments, and all kind of residential units.

Hybrid-Biometric Lock

Fingerprint Lock

Hotel Lock

Glass Door Lock

Compatible with  ZKBioSecurity

SMART LOCKS

WHY ZKTECO?

Almost 1000 R&D Engineers

More than 500 Sales people

More than 200 foreign employees

More than 500 Technical Support

With almost 1,000 R&D Engineers, ZKTeco ensures to meet all the customer's requirements according to their needs.

We are offering sales and technical support from all our local subsidiaries making it easier for our customers to ask for assistance, customization, and integration.

- ✓ **BIOMETRIC ALGORITHM.** We develop our own biometric algorithm of fingerprint, face, finger vein, and palm verification for higher security identification.
- ✓ **ONE-STOP SOLUTION.** We provide a one-stop solution to objects management, entrance control of visitor and vehicle, time & attendance, access control, and video surveillance.
- ✓ **ADVANCE MANUFACTURING PROCESS.** We have a large factory with the most advanced production machinery and strict quality control.
- ✓ **COMPREHENSIVE PRODUCT R&D.** We have a thorough tested workflow and comprehensive product design, research & development, manufacturing and supply chain system.
- ✓ **WE ARE GLOBAL.** We have branch offices all around the globe providing local sales and technical support.
