Brief Introduction

ZKTeco has created a smart lock called ML100, built with a European Standard 5050 mortise.

ML100 can connect to Wi-Fi for remote unlocking, password sharing, record tracking, and managing lock users and visitors through a smartphone. In addition, this smart lock offers multiple ways of unlocking including fingerprint, IC card, NFC and pass code.

As a result, ML100 is an ideal door lock management solution for apartments and private houses.

Features

Remote Unlocking With Mobile App
Unlock and manage the lock from anywhere

Audio Instructions
User-friendly audio prompts, support English and Chinese

Capacitive Fingerprint Sensor
Fast verification for dry and rough fingers

Temporary Access
Share digital keys valid for specific time to friends or guests

NFC
Bind the IC card to your mobile wallet, and unlock your door with your smartphone or your IC card. No worries about misplacing your IC card
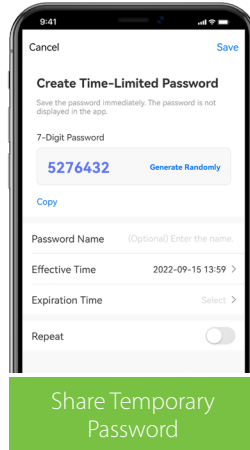

Wi-Fi Communication
Ensure a fast and stable by Wi-Fi IEEE 802.11b/g/n (2.4GHz Wi-Fi)

Random Passcode
Add random digits to protect your passcode from prying eyes

Emergency Charging Port
Charging via the micro-USB port

Smart Alerts
Receive real-time notifications of low battery, hijack and offline

Lock Out Mode
All normal users (other than admin) will be locked out
