Introduction

The SL01-T430H is a mortise-style door lock with a lever handle. It has a fingerprint sensor and supports remote locking and unlocking via a mobile device.

When SL01-T430H is connected to Wi-Fi, users can remotely lock and unlock the door using the ZSmart app. Users can also view log history, share the temporary visitor passcode, activate the tamper alarm and deactivate the door alarm as needed. Additionally, when paired with a compatible Amazon Echo or Google Home device, users can unlock the door with voice commands.

The SL01-T430H's touch keypad also features a separate doorbell button. Users can customize the schedule for the "Do Not Disturb" feature.

The SL01-T430H offers a smarter, safer, and more convenient lifestyle. It is an ideal choice for luxury homes and apartments.
