What is BioTimeCloud?

BioTimeCloud is a **cloud-based time attendance solution** that lets you manage and organize your workforce effectively and efficiently wherever you are without having any physical server.

It comes with a mobile application to allow employees report their real-time attendance using GPS mobile tracking.

Powered by: 

Cloud-Based Centralized Time Management Solution

- ✓ Synchronize data from time & attendance devices in different locations.
- ✓ Centrally manage roster, shifts, and timetables efficiently.
- ✓ Monitor the data from inter-regional terminals in real-time.

Why BioTimeCloud?

The Advantages of Choosing BioTimeCloud

EASY SETUP

BioTimeCloud is a cloud-based system that handles data and information without software installation, software maintenance, and hardware environment establishment.

HIGH-LEVEL SECURITY

Data safety is the most important feature for client by using AWS cloud server. The cloud technology offers 24/7 support with a server that is always online and available.

SCALABILITY

Have a growing workforce? Upgrade your storage needs without purchasing and installing expensive upgrades yourself.

ACCESSIBILITY

Access your important data anytime and anywhere without any dyndns or public IP needed.

MAINTENANCE FREE

Your subscription includes full time attendance and simple access control management functions, mobile application, updates, and support.

ONLINE SERVICE AND SUPPORT

Having issues? Get 24/7 real-time support from our well-trained technical and software team with no additional charges.

Features that makes our solution effective.

Multiple Location Assignment

You can assign your employee to work and report their attendance from multiple workplaces and field locations.

Live Employee Location Tracking

Know the current location of your employee who works in the field with the use of GPS mobile tracking system.

Attendance Policies Management

You can set pay code, overtime rules, holidays, shift schedules, and cycles for your employees.

Real-time Attendance Calculation

Generate attendance reports directly without a hassle. BioTimeCloud calculates and generates reports in real-time.

Daily Activity Monitoring

Manage daily timecards of your employees to boost productivity and calculate payroll efficiently.

Leave Management

Leave management lets you organize employees' leave, requests and approval.

Approvals

Your employees can apply for manual logs, leave, and overtime through the mobile application which will go to the approval process.

Mobile Application and Geofencing

Your employees can report attendance logs based on workplaces you have assigned to them with optional reporting zone limitation.

Main Dashboard

Real-Time Monitoring

Shows the real-time attendance logs with graph whenever an employee punches in or punches out. If enabled, it also shows the body temperature and mask detection logs.

Overall Statistics

Shows a real-time of attendance, device status, schedule, and approvals in the current day.

Real-Time Events

Shows the current and upcoming events.

Device Status

Shows the real-time device status whenever it is online or offline.

Attendance Global Rule

Companies who need to set up calculations **pay periods** on how often they pay the employees and **pay code** policies to define each salary according to their work hours rendered can be managed in BioTime Cloud.

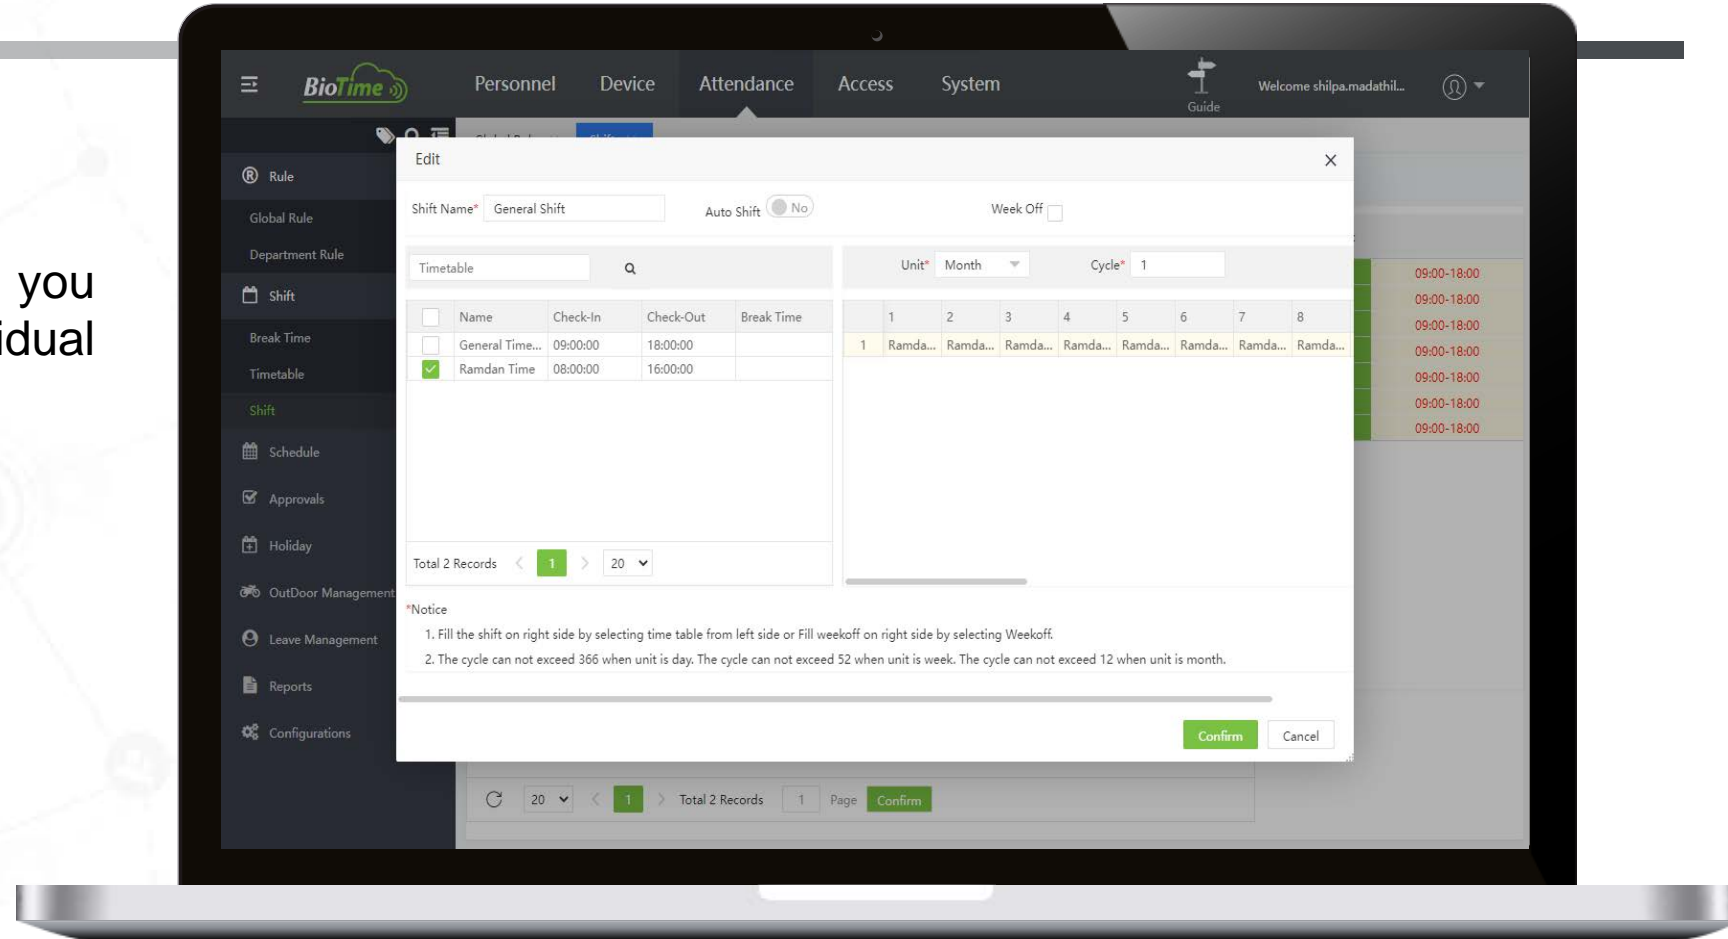

Attendance Policies

- ✓ Calculation Rule exceeding Late/Early-Leave/Work duration
- ✓ Calculation Missed Check-In/Check-Out
- ✓ Leave Calculation Rule Start to End day

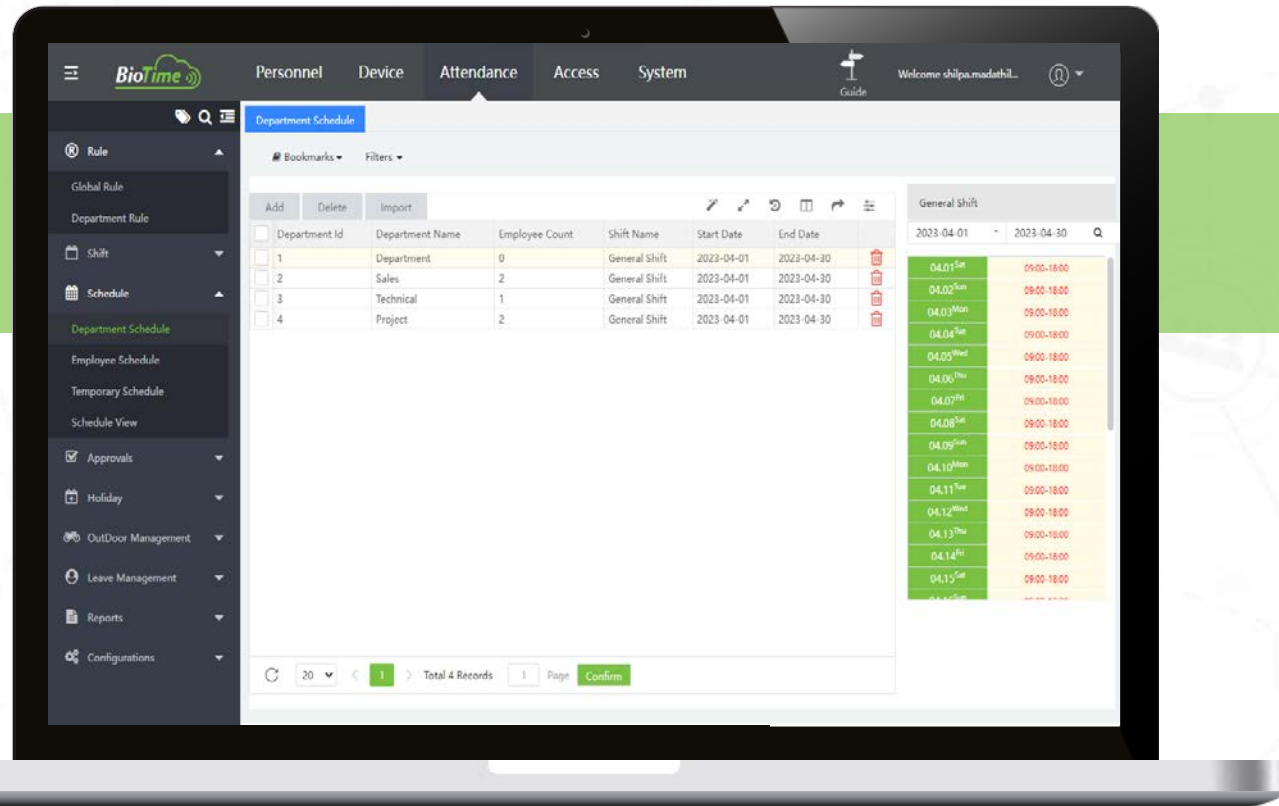

Shift Schedule

Assign different shifts which you can assign to your individual employees.

- ✓ Regular Shift
- ✓ Flexible Shift
- ✓ Cross-Day Shift
- ✓ Holiday Shift
- ✓ Weekend Shift
- ✓ Overtime Shift

Flexible Shift Scheduling

- Multiple timetables
- Cross-day shift (24 hours)
- Shift Cycle
- Auto shift
- Temporary schedule
- Department schedule
- Employee schedule
- Schedule View

Roster Management

Easily manage multiple schedule assignments using excel import. Administrators can import the employee schedule in batch for personnel.

Multi-Level Approvals and Automatic E-mail Alerts

1

Employees apply for leave, manual punch, and training.

The screenshot shows a mobile application interface for submitting a leave request. The form is titled 'Leave Request' and includes the following fields: 'Leave Type' (dropdown), 'Paid/Unpaid Leave:' (dropdown), 'Single/Half/Multiple day(s)' (dropdown), 'Start Date' (dropdown), 'End Date' (dropdown), and 'Reason' (text input). A green 'Submit' button is at the bottom. A note at the bottom of the form states: '**Single day leaves are only accepted under Multiple days option'. The background of the app shows a home screen with various icons like 'Home', 'Punch', 'Attendance', 'Shift', 'Request', and 'Report'.

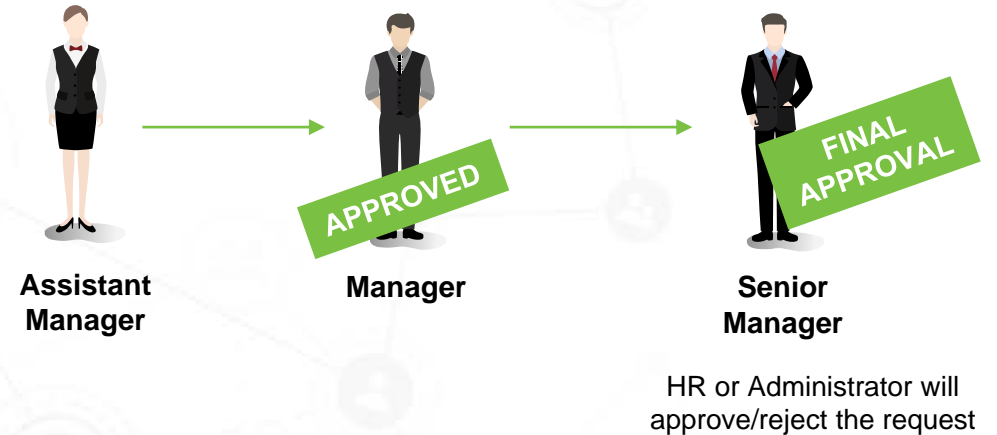

2

An employee makes a request through the mobile application

3

Requests will go through approval by the approvers.

All request type can be added and defined on the BioTimeCloud web access

Outdoor Management

- HR/Administrator can add client details and set schedule for employees on site.

- Employee can view his/her schedule information both from BioTime Cloud site and Mobile App

Leave Management

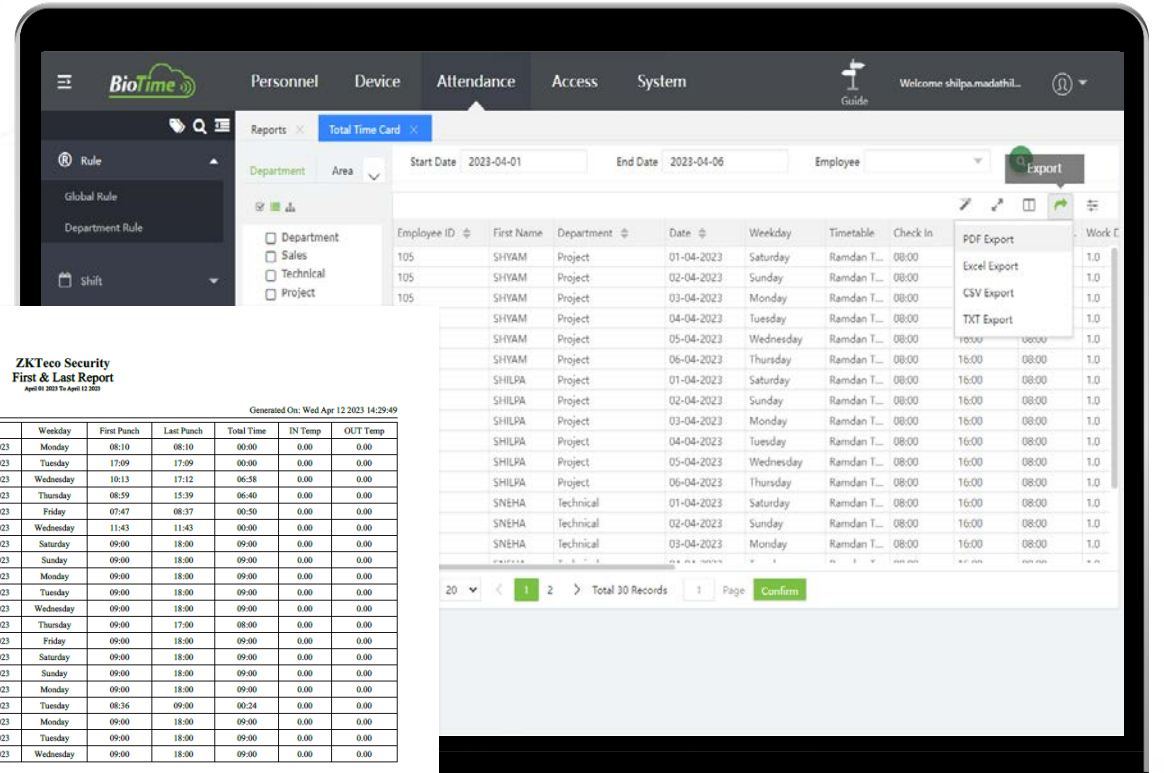

First Name	Leave Allotment Type	Leave Effective From	Increment Date	Total Leave	Leaves Allowed PerMonth	Carry Forward Limit	Leave Used	Leave Balance
SARA	Yearly	2023-04-06	2024-04-06	1	1	0	0.0	1
SHILPA	Yearly	2023-04-06	2024-04-06	1	1	0	0.0	1
SHYAM	Yearly	2023-04-06	2024-04-06	1	1	0	0.0	1
SNEHA	Yearly	2023-04-06	2024-04-06	1	1	0	0.0	1
MONET	Yearly	2023-04-06	2024-04-06	1	1	0	0.0	1

Leave management lets you **organize employees' leave, requests and approval.**

Real-Time Attendance Calculation

Generates any types of reports that can be exported in **PDF, Excel, CSV, and TXT** format

Geofencing Mobile Punches

Creates a geographic boundaries to restrict mobile application punches. Define the clock-in boundaries on the BioTime Cloud

Specifications

System Architecture	Cloud-based
Cloud Server	Amazon Web Services (AWS)
Templates	Fingerprint / Visible Light Face / Card / PIN
Recommended Browser Version	IE 11+ / Firefox 27+ / Chrome 33+
Monitor Resolution	1920*1080

For the hardware compatibility, kindly visit our website www.zkteco.me.

BioTimeCloud Mobile Application

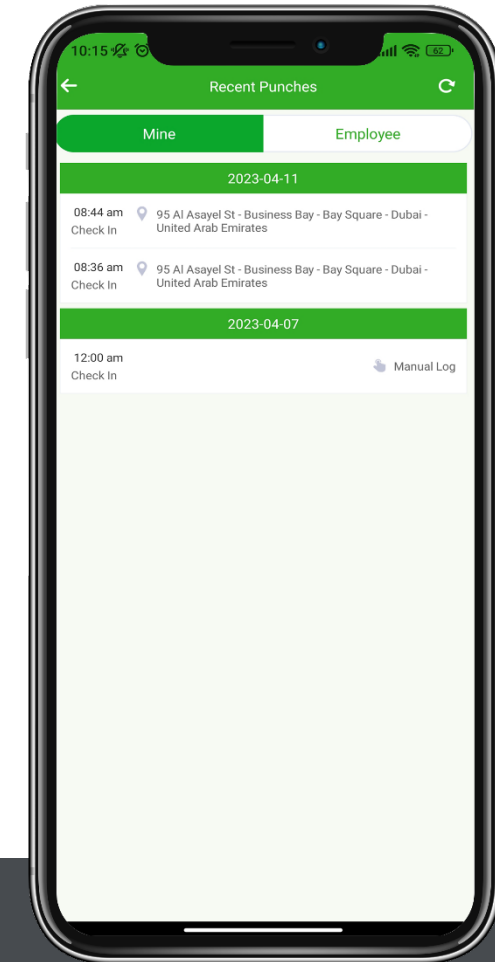

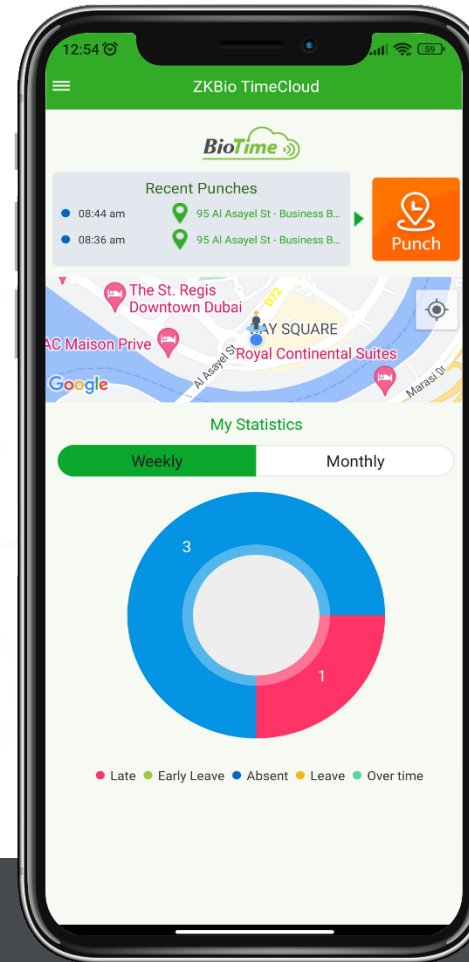

Features

- Real-time attendance with geographic location details
- Live Attendance and Outdoor Punch
- Attendance approvals
- Real time notifications
- Public and Private Announcements
- Easy operation: Two-step navigation
- User-friendly interfaces for admin and employees
- Online employee requests and status
- Two dashboards: Administrator and Employee

Available in:

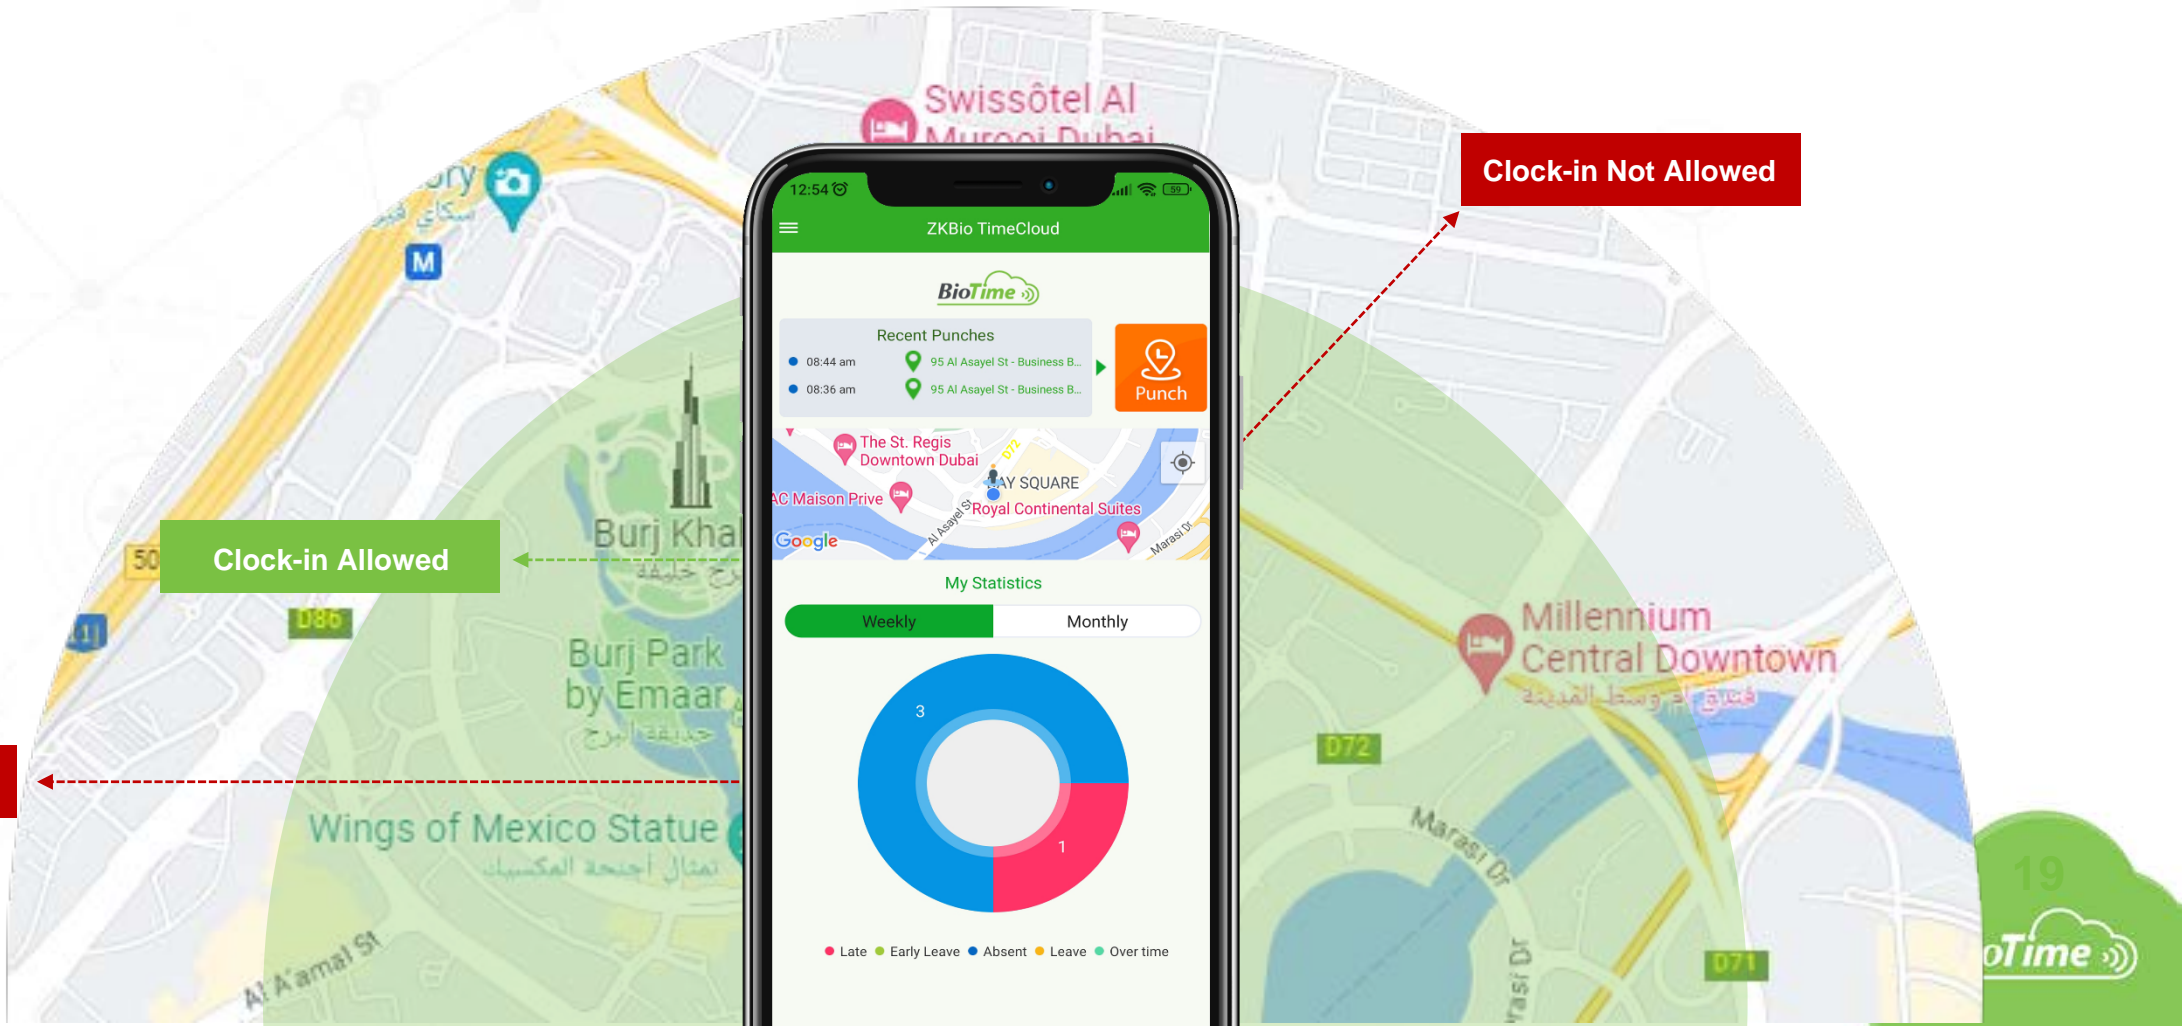

Real-time attendance with geographic location details.

Aiming to track your off-site employees, BioTime Cloud's real-time location tracking function is the best solution for your business.

Geofencing Mobile Punches

HR can set a distance limit of allowed mobile punches according to the workplace selected.

Online Request

A series of stacked screenshots showing the online request forms. The top form is 'Leave Request' with fields for Leave Type, Paid/Unpaid Leave, and Single/Double. Below it is 'Overtime Request' with fields for Start Date, Overtime Type, and End Date. The next is 'Manual Punch Request' with fields for Start Date, End Date (11:07 am), and Reason. The bottom form is 'Training Request' with fields for Workcode, Training Type, Start Date, End Date, and Reason. A 'Submit' button is visible at the bottom of the Training Request form.

1

Employees apply for leave, overtime, manual punch and training request on “Request” menu.

2

All requests will move to the approval section which will be subjected for approval by the HR or Supervisor.

Requests and Approvals

Multi-level approvals for HR/Admin

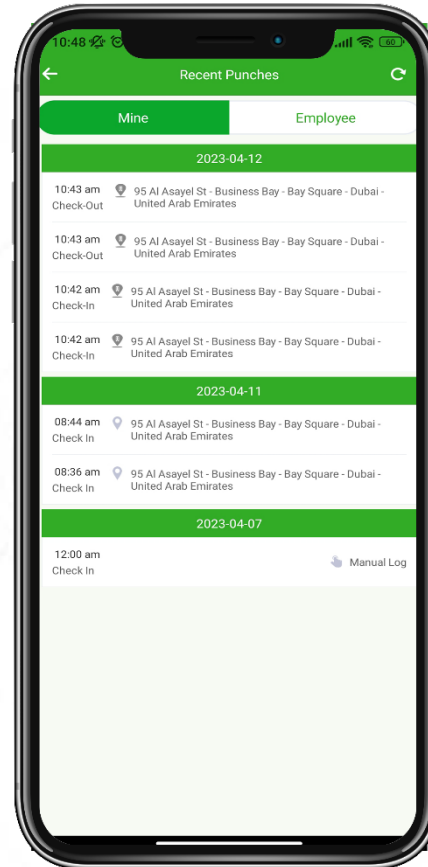

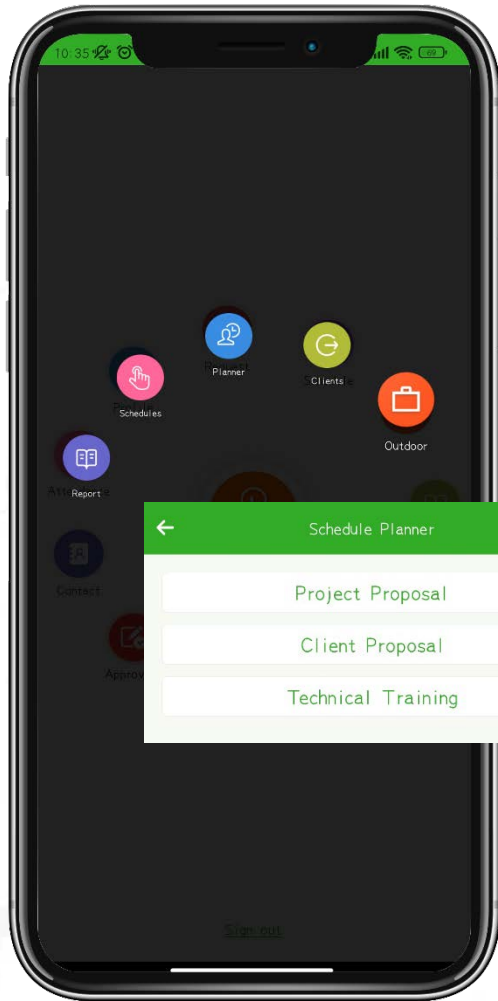

- Leave
- Overtime
- Manual Punch
- Training
- Schedule

Employees requests for **leave, overtime, manual punch** and **training request** through the mobile application which will be Approve/Reject by the HR or Administrator.

- “Request” menu is dedicated for employees.
- “Approvals” menu is only accessible by the administrators.

Outdoor Management

- HR/Administrator can assign each employee their workplaces which they can choose from the mobile application and punch in/out.
- Employees can view and monitor their schedule accordingly on what the Admin set on the schedule planner.
- Employee can punch in/out in their outdoor workplaces either it is scheduled or unscheduled.

Attendance Summary Reports

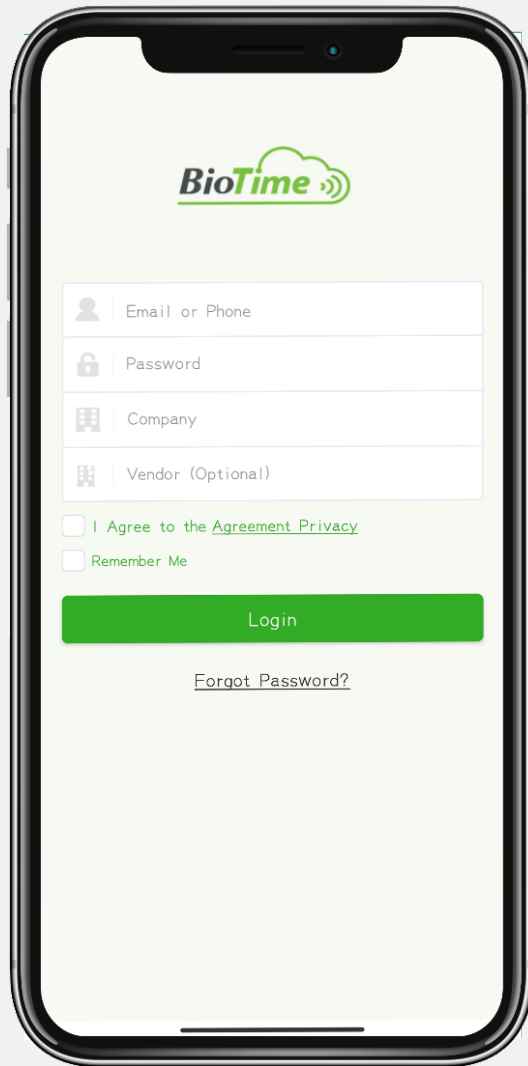

- Administrator can view and monitor the staff attendance reports.

The image shows a smartphone displaying the 'Reports' app interface. The app has a green header with 'Reports' and two tabs: 'My Report' and 'Staff Report'. Below the header, there is a search bar for 'Employee ID', a 'Select Department' dropdown, and two date range dropdowns: '2023-04-01' and '2023-04-10'. A 'View Report' button is visible at the bottom of the app interface.

The desktop view shows a table with the following data:

Employee ID	First Name	Date	Check In	Check Out	Total Time
108	MONET	01-04-2023	09:00	18:00	09:00
108	MONET	02-04-2023	09:00	18:00	09:00
108	MONET	03-04-2023	09:00	18:00	09:00
108	MONET	04-04-2023	09:00	18:00	09:00
108	MONET	05-04-2023	09:00	18:00	09:00
108	MONET	06-04-2023	09:00	17:00	08:00
108	MONET	07-04-2023	09:00	18:00	09:00
108	MONET	08-04-2023	09:00	18:00	09:00
108	MONET	09-04-2023	09:00	18:00	09:00
108	MONET	10-04-2023	09:00	18:00	09:00

The desktop view also includes a pagination bar at the bottom with a refresh icon, a dropdown for '10', a page indicator '1' of 'Total 10 Records', a 'Page' dropdown, and a 'Confirm' button.

Anti-fake Punch

An employee can only log in using one mobile phone only.

Note: *Even the employee logs out and log in to another phone, it will not accept the verification.*

**HR/Admin who only have access right and can reset unique user/client number upon request and approval.*
